Our Liability for Failure to Make a Transfer

We will not be liable in the following instances:

1. If through no fault of Cedar Security Bank, You do not have enough money in Your Account to make the transfer.
2. If circumstances beyond Cedar Security Bank control (such as fire, flood, power outage, equipment or technical failure or breakdown) prevent the transfer, despite reasonable precautions that we have taken.
3. If there is a hold on Your Internet Banking Account, or if access to Your Internet Banking Account is blocked, in accordance with banking policy.
4. If Your funds are subject to legal process or other encumbrance restricting the transfer.
5. If Your transfer authorization terminates by operation of law.
6. If You believe someone has accessed Your accounts without Your permission and You fail to notify Cedar Security Bank immediately as set forth in this agreement.
7. If You have not properly followed the scheduling instructions on how to make a transfer as included in this agreement.
8. If We have received incomplete or inaccurate information from You or a third party involving the account or transfer.
9. If We have a reasonable basis for believing that unauthorized use of Your Password or Internet Banking Account has occurred or may be occurring; if You default under this Agreement, the deposit account agreement, a credit agreement or any other agreement with us; or if We or You terminate the Service.
10. If you incorrectly identify by name and e-mail address or mobile number a recipient of a P2P transfer. We may rely upon the email address or mobile number to make payment even if it identifies a financial institution, person or account other than the party named as the intended recipient.

You agree that in no event shall We be liable for damages in excess of Your actual loss due to our failure to complete a transfer, and We will not be liable for any incidental or consequential damages.

If any of the circumstances listed in subparagraph two (2) or eight (8) above shall occur, we shall assist You with reasonable efforts in taking appropriate corrective action to reprocess the transactions that may not have been completed or to correct incorrect transactions that have been processed.

Electronic Transactions

Your liability with regard to unauthorized electronic transactions: Under Reg. E, Electronic Funds Transfer Act, consumers receive certain protections against unauthorized electronic transfers from their bank accounts. However, the Electronic Funds Transfer Act DOES NOT apply to business customers.

The Uniform Commercial Code Article 4A, governs electronic funds transfers between a bank and its business customers. In general, UCC Article 4A allocates the liability to the business customer when the bank has adopted commercially reasonable security procedures, the business agrees to the use of the procedures and the Bank acting in good faith, uses the procedures to verify the electronic transfers.

By using these online transfer services, you certify that you will utilize security best practices and continue to adjust your practices as new electronic threats arise. You also understand your risk and liability for unauthorized transfers.

In addition, we highly recommend the following best practices to reduce the likelihood of loss due to fraud:

- Establish email alerts or text alerts to stay informed of withdrawals and account balance changes.
- Whenever possible, conduct banking transactions on a stand-alone PC where other Internet browsing and email correspondence is not conducted. This limits the opportunity for malware and viruses to infect the PC you are using for financial transactions.
- Never provide your Internet Banking password or other confidential banking information to anyone.
- Be very careful when clicking on links or attachments in emails. They may contain viruses and malware.
- Do not share your account number, Social Security Number or other confidential information via email unless you encrypt or secure the email before transmission.
- Do not conduct banking transactions while using a public Wi-Fi. These typically do not provide a secure connection.
- Utilize and regularly update anti-virus and anti-malware security software on your computer. Apply patches and updates in a timely manner to ensure you are on the latest version.
- Please contact Customer Support at 402-357-3508 to cancel these services if you no longer wish to utilize them.

Disclosure of Information to Third Parties

We will disclose information to third parties about Your Internet Banking Account or the transfers You make:

1. Where it is necessary for completing transfers; or

Cedar Security Bank

2. In order to verify the existence and condition of Your Internet Banking Account for a third party, such as a credit bureau or merchant; or
3. In order to comply with government or court orders.

If Your Statement Shows Transfers That You Did Not Make

If Your statement shows transfers that You did not make through the Internet Banking system, please notify us immediately at any one of our offices listed under the "Contact Information" paragraph. If You do not notify Cedar Security Bank within 60 days after the statement was mailed to You, You may not recover any money lost after 60 days which would not have been lost if Cedar Security Bank had been notified in time.

Errors and Questions

In case of errors or questions regarding Cedar Security Bank Online (Internet) Banking, contact an Online (Internet) Banking Representative at any one of our offices listed in the "Contact Information" paragraph. 1. Your name and account number (if any).
2. A description of the error or the transfer in question and an explanation concerning why you believe it is an error or need more information.
3. The dollar amount of the suspected error and date on which it occurred.

If the report is made orally, We will notify You with the results of the investigation within ten (10) business days and will correct any error promptly. If more time is needed, however, we will notify You in writing and may take up to 45 days to investigate a complaint or question. If this occurs, we will credit Your account within ten (10) business days for the amount You think is in error. This will allow You to use the money during the time it takes us to complete our investigation. If we determine that no error occurred, we will send You a written explanation after the investigation is complete. You may request copies of the documents that were used in the investigation. You agree that Cedar Security Bank may respond to You by electronic mail with regard to any claim of unauthorized electronic fund transfer related to the service. Any such electronic mail sent to You by Cedar Security Bank shall be considered received within three (3) business days of the date sent by Cedar Security Bank, regardless of whether or not You access the Service within that time frame.

Online (Internet) Banking Bill Payment Services

If you enroll for Bill Payment, you can pay your current, future, and recurring bills from any of your permitted Cedar Security transactional checking accounts. You agree to maintain a sufficient balance at all times to pay all debits, fees and charges presented for payment through Bill Payment. Accounts not eligible for Bill Payment include: two signature required accounts; money market accounts; super now and savings accounts. You can pay any company or individual within the United States, but you cannot pay any federal government agency.

Upon receipt of your payment instructions, payments will be remitted on your behalf from the funds in your checking account to the Payee you have established. Bill Payment items will be treated like any other check that you write. Should the item be returned, you will be assessed the applicable NSF Return Item Fee or O/D Paid Item Fee.

Bill Payment paper check transactions are processed three times daily. The first cut-off is 10:00 a.m. CST, the second cut-off is 1:00 p.m. CST, and the third cutoff is 3:00 p.m. CST. Bill payment electronic (ACH) transactions are processed twice daily; 12:30 p.m. CST and 5:00 p.m. CST. You have the right to stop or change any scheduled payment provided you cancel the payment before the respective cut-off time. Payments may be cancelled by using the edit function to delete the instructions to pay, or stopped by contacting Customer Service at 402-357-3508. Customer Service hours are Monday through Friday 8:00 a.m. to 4:00 p.m. CST.

Limits

Upon approval of your Online Banking agreement by us and your enrollment in Bill Pay, you agree not to exceed the following limitations on dollar amounts of payments that are set by Cedar Security Bank:

ACH: \$2,500

Paper Check: \$10,000

Cedar Security Bank reserves the right to modify the payment limits at any time.

Scheduling

Any payments made with Bill Payment require sufficient time for your Payee to credit your account properly. To avoid incurring a finance charge or other charge, you must schedule a payment sufficiently in advance of the due date of your payment. When you schedule payments, you must schedule the payment at least **3 (three) business days** for electronic payments and **7 (seven) business days** for check payments prior to the date your payment is due.

Bill Payment Cancellation/Termination

If, for any reason, you should ever wish to cancel Bill Payment, you can cancel all future or scheduled bill payments at the same time that you cancel your service by deleting all Payees from your Personal Payment Schedule in Bill Payment. This will ensure that future payments will not be processed. You may terminate this agreement by contacting Customer Support at 402-357-3508. Cedar Security Bank is not responsible for any bill payment made before we have a reasonable opportunity to act on your termination notice, which will not exceed 30 calendar days. You remain obligated for any payments made by the Bill Payment service on your behalf.

Cedar Security has the right to terminate this agreement at any time. We may cancel your Bill Payment service at any time without prior notice due to insufficient funds in any of your accounts.

Bill Payment - Notice of Risk and Liability

You are solely responsible for controlling the safekeeping of, and access to, your Online (Internet Banking) login credentials. If you want to terminate another person's authority to use the Bill Pay service, you must notify Cedar Security.

Cedar Security shall not be responsible for any charges imposed or any other action taken by a Payee resulting from a payment that you have not scheduled properly, including any applicable finance charges and late fees. In addition, Cedar Security will not be liable if: any third party through whom any bill payment is made fails to properly transmit the payment to the intended Payee, there are insufficient funds in your designated payment account or if there are no available funds in your overdraft protection plan (i.e. Ready Reserve), if a legal order directs us to prohibit withdrawals from the payment account, the payment account is closed or frozen, the Internet Banking and/or Bill Payment and/or P2P system is not working properly, or if damages were caused through indirect, special, or consequential use of the Bill Payment system.

Transaction History

You may view your transaction history by logging into Online Banking and viewing your account history. This history is also available through the periodic statements provided to you.

Security

Bill Payment and Person to Person payments (P2P) allow you to transfer funds out of your Cedar Security account(s). While this provides convenience to you, it also adds risk of loss of funds should a transfer occur that you did not authorize or initiate. While Cedar Security has established strong internal security, it will be important for you to utilize strong security practices as well. Due to the sophisticated nature of cyber-crime, there is not one single solution for online security. The best approach for online security is a multi-layered approach. While we realize some security measures may be inconvenient, our primary concern is protecting your accounts from losses due to fraud.

Due to the increased risk of fraud with these services, you agree to follow and implement security best practices including:

- Creating strong passwords and committing them to memory. Never writing your passwords down where they can be easily found.
- Changing your passwords regularly. Cedar Security recommends changing your passwords every 30 to 90 days.
- Never using the "remember password" feature on your computer to automatically complete your ID and passwords for you. This allows anyone who has access to your PC to log into your Internet Banking account.
- Contacting Customer Support immediately at 402-357-3508 if you see a transaction(s) that you did not authorize or if you become aware of any possible breach of security affecting these services.
